LETTER FROM THE EDITOR

"GOLF PLEASURE & TASTE" N 20

Dear Readers,
Issue 20 of „Golf Pleasure & Taste“ is a fully digital edition, available on our website www.golfpleasureandtaste.com and on the IM-MOGOLF - Golf Pleasure Taste app on the Apple Store.

After a tour of Switzerland, spanning Zurich and Ticino, this edition focuses on golf in Italy and abroad. In our Travel Destinations section, we've selected some top destinations, including Maradiva Resort in Mauritius, Base Island on the exclusive island of Bawe (near Tanzania), Francourt Golf Resort in South Africa, and Naama in Oman.

Winter is upon us, but it's the perfect time to

spend some sunny moments abroad.

We're organizing a golf clinic for ladies and beginners in Somabay, Egypt, with our golf ambassador Chiara Cantone, CEO of Physiogolfmarbella, from January 18th to 26th, 2026.

We look forward to seeing you there!

'Ono Loa' is Hawaiian and means:

Very Delicious

Our Poké Bowl takeaway shop at Erlenbach ZH train station combines tradition and modernity in a delicious and healthy meal. The origins of the Poké Bowl lie in Hawaii, where fishermen cut their fresh catch into bite-sized pieces and seasoned it with seaweed, sea salt, and nuts. Today, Poké Bowls are known and loved worldwide for their versatility and healthy ingredients.

We are a small family business, and our mission is to «Change Fast Food»: Our bowls are prepared in no time at all without sacrificing taste, quality, or variety. Ono Loa Bowls aren't just salads; they're bowls filled with the highest quality ingredients and

a variety of bases, such as rice, lettuce, or zoodles. They are perfected with vegetables from regional vendors, a selection of fresh salmon and tuna, shrimp, chicken, or tofu, as well as homemade fresh sauces and toppings such as avocado cream, wakame, masago, and more.

These combinations make our bowls not only a visual highlight, but also a true nutritional bomb. They provide high-quality proteins, healthy fats, fiber, and vitamins – everything you need for a balanced diet.

With our passion for quality and sustainability, we want to inspire you out there and establish a new culinary trend. Our mission is to celebrate the diversity and flavor of Hawaiian cuisine while making a positive contribution to your health.

What else do we offer?

We not only love poké bowls, but also coffee and matcha. In our restaurant, you'll find the best matcha and coffee in the entire city – for this reason, we have carefully selected the highest-quality suppliers. For our matcha, we use a special, high-quality ceremonial grade, and for our coffee, we partner with Blasercafé—one of the largest and most renowned roasters in Switzerland. We offer a wide selection of different coffee and matcha variations, which you can refine to your taste with our homemade syrups.

The Dolder Golf Club Zurich was founded in 1907 and it is one of the oldest golf clubs in Switzerland. The private 9-hole course is located in the area of the city of Zurich and is idyllically embedded in the forest of the Adlisberg. Guests are welcome. Tee times are to be agreed through the secretariat. The course is located on the southern slope of the Adlisberg.

For this reason, the many inclines make the place, despite its clarity, a physically and mentally challenging experience. 2004/05, the place was gently rebuilt and renewed all greens. The 9 hole course can be played in two passes. The deductions remain the same in both rounds. Slopes, stepped greens, bunkers and old, dense trees complicate the game. The course is not very long, but the greens are small and well defended. Precision is therefore more important than length.

ERGOCAD R1 – THE NEW FAIRWAY RIDING EXPERIENCE

With a new, unique geometry, the user experiences a new ergonomic riding experience.

The ErgoCad R1's concept is to make direction changes and uphill rides ultra-easy.

The ErgoCad R1 is foldable and doesn't need to be disassembled, making it the smallest e-trolley that doesn't need to be disassembled when packed in its carrying case.

FRONT WHEEL

BACK WHEEL

FOLDED

FINEST MATERIALS

- The frame of the ErgoCad R1 is made of full-grain carbon.
- The handle is made of locally sourced walnut and sealed.
- All folding systems are CNC-machined from aluminum and anodized.
- For a long service life, the screws and fasteners are made of stainless steel. This provides the best protection against corrosion.
- The bag holder supports are hand-sewn from genuine cowhide.
- The wheels, made of glass-fiber reinforced plastic, form the basis for the solid rubber tires.
- Two Swiss Maxon high-performance motors ensure powerful and quiet propulsion

BE CREATIVE – THINK DIFFERENT

The ErgoCad R1 breaks new ground in terms of design and application.

The innovative design with two drive wheels at the front and a pivoting rear wheel not only allows the ErgoCad R1 to change direction with minimal effort, but is also proven to be much more stable off-road.

It can't tip backward when going uphill, and its stability when driving at an incline is impressive thanks to the new geometry.

NEW FRIENDS & NETWORKING

According to Chiara Cantone, director of Physiogolfmarbella, there is a clear difference between the body, mind, and goals of men and women, both in golf and in life itself. While men are more focused on distance and strength, measuring everything with statistics, women appreciate the elegance of movement and are more interested in «feeling good in a group» and socializing. Therefore, at the end of each lesson, we offer an Aperitivo Riche to facilitate social interaction within the group. Thanks to her background as a sports physiotherapist specializing in golf and a PGA instructor, she created the revolutionary Less Is More Golf Method, based on health and neuroscience and extremely suitable for women. During the summer of 2025, we have

decided to organize golf information days for beginners and neophytes and to emphasize the women's swing. In Marbella, Chiara Cantone has been managing the famous Ladies Golf Group Marbella for four years now, whose success has been discussed in podcasts, YouTubers, and industry magazines. To prepare for the winter season, we are delighted to have strengthened our partnership with Golf Pleasure and Taste, organizing golf experiences in Spain, Switzerland, and Egypt at the beautiful Somabay resort in Hurghada.

SWISS LADIES OPEN

Top-class sport and excitement: the VP Bank Swiss Ladies Open 2025 thrilled spectators once again.

From 11 to 13 September 2025, the sixth edition of the VP Bank Swiss Ladies Open was held at the Migros Golfpark Holzhäusern. One hundred and twenty of the best female golfers on the Ladies European Tour (LET) competed against each other on the challenging 18-hole 'Zugersee' championship course, in front of a passionate live audience and a large TV and online audience.

A long-term commitment to women's golf

VP Bank has been the title sponsor of the Swiss Ladies Open since 2020. The tournament represents excellence in international golf. Through this sponsorship, VP Bank continues to demonstrate its commitment to women's golf, offering unique experiences for professional golfers, Swiss Golf and its clients.

A tournament of the highest calibre

Once again, this year's field of

participants was of the highest calibre, featuring numerous winners of previous LET tournaments, including Alexandra Försterling, winner of the 2023 tournament, and Alice Hewson, the defending champion from England. Over the course of three days, the players competed in thrilling contests.

A special moment at the end

The emotional highlight of the tournament was the awards ceremony on the final day. Amidst the impressive backdrop of the golf park, Urs Monstein, the CEO of VP Bank, presented this year's winner Alice Hewson with the traditional wooden cow trophy. Chiara Tamburlini, sponsored by VP Bank, came in second place.

The best part? It doesn't matter if you've never held a club or you're scratch golfer. We've had complete beginners discover they love the game, groups of friends turn it into their new hangout spot, and plenty of experienced players who just want to work on their swing without battling the elements.

It's pretty straightforward really – come in, grab a club, and see what happens. The simulators handle everything else. Perfect for a quick solo session, a fun evening with mates, or even corporate events if that's your thing.

Drop by whenever the mood strikes. Rain or shine, we'll be here. We are looking forward to welcoming you at Zurich Golf. See you soon, Nicolas & Vasco.

“THE MASTER GOLF ACADEMY” BY ALLAN-ANDRÉ KUBERNAT

Golf besser lernen – individuell, strukturiert, planbar

Individueller Golfunterricht in Zürich auf
den Stufen Basic, Advanced, Expert

THE MASTER GOLF ACADEMY steht für
individualisierten Golfunterricht, der sich
vollständig an Können und Zielen der
Lernenden orientiert. Herzstück ist ein
Meilensteinkonzept mit drei klar definierten
Stufen – Basic, Advanced, Expert – das
Entwicklung planbar macht.

Hinter dem Ansatz steht Allan André
Kubernat, Master Professional (PGA
of Germany). Er verbindet fundierte
Ausbildung, jahrzehntelange Coaching-
Erfahrung in der D-A-CH-Region und ein
klares Unterrichtskonzept: In der MASTER
GOLF ACADEMY wird Unterricht so
strukturiert, dass er exakt zu Ihrem aktuellen
Niveau, Ihrem Ziel und Ihrem Lerntempo
passt.

Die Lehr- und Unterrichtsphilosophie – klar,
strukturiert, wirksam

Basic – Grundlagen mit System

In Basic legt Allan die Basis: Stand, Griff,
Ausrichtung, Rhythmus. Dabei nutzt er sein
Konzept „Spielen nach Buchstaben“ – eine
Methodik, die komplexe Technik in klare,
wiederholbare Buchstabenprinzipien übersetzt
und so schnell verständlich macht.

Advanced – Verständnis schafft Leistung

Wer die Grundlagen beherrscht, entwickelt
sie in Advanced weiter. Entscheidend ist das
„Wie“ und „Warum“ hinter der Technik. Dieses
Verständnis macht Lernende eigenständig und
sorgt für nachhaltige Fortschritte – vom Training
bis auf den Platz.

Expert – präzise wie die Pros

Ambitionierte Amateure und Profis arbeiten in
Expert mit dem Schwungmodell „Swing like
a Pro“. Der Ansatz folgt biomechanischen
Prinzipien und fokussiert Präzision und
Wiederholbarkeit – für messbar höhere
Konstanz im Spiel.

Wichtig: In jeder Stufe definieren Coach
und Spieler gemeinsam das passende Ziel –
transparent, erreichbar, motivierend.

Hoizart – Natural masterpieces for stylish living spaces

Welcome to Hoizart, where Swiss craftsmanship meets natural aesthetics. In our factory, we create exclusive and unique pieces made from premium, sustainably sourced Swiss wood for individuals with a sense of the exceptional. Our collection combines the timeless beauty of local woods, such as apple, pine, plum, oak, or walnut, with modern design. This creates objects that go far beyond their function: they become characterful companions for style-conscious living spaces.

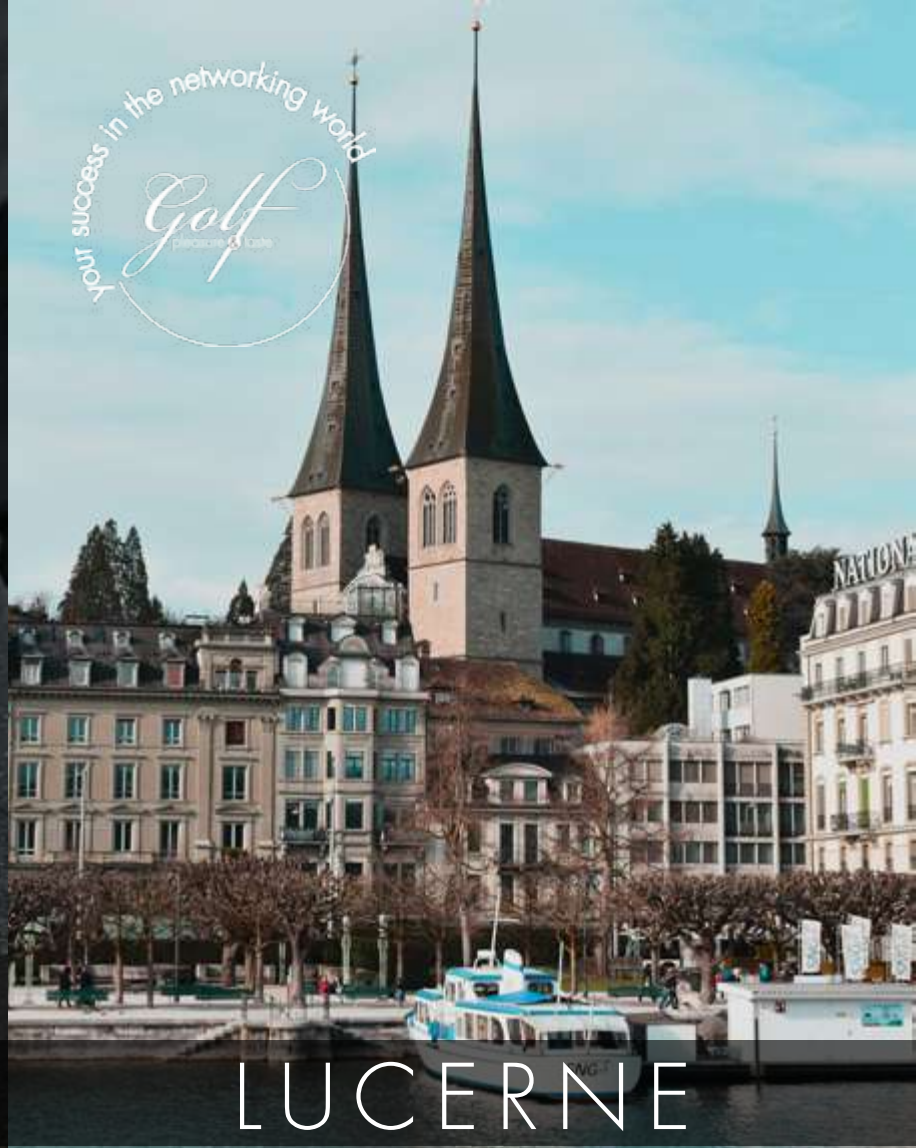

Our handcrafted spice mills are particularly popular, not only with passionate amateur chefs. Each piece is a tactile experience, a unique piece with character that adds elegance to your kitchen and a touch of Swiss authenticity to every culinary moment. They're ideal for rounding off the day after a round of golf.

Sustainability is our credo. Every step of the process follows the principle of responsibility: for the environment, for craftsmanship, and for future generations. We work exclusively with wood from certified sustainable forestry and produce with great sensitivity and respect for the environment.

I am Franz Dallmeier, founder and creative mind of Hoizart. With passion and precision, I shape the soul of trees for those who appreciate authenticity, design, and quality. Rediscover the connection between nature and aesthetics. With a Hoizart piece, you'll not only bring a unique object into your home but also a symbol of style, sustainability, and conscious living.

OMEGA EUROPEAN MASTERS 3 - 6 September 2022

THE HISTORY OF THE EUROPEAN MASTERS

The Swiss Open has a long history, having been held for the first time in 1923. At that time there were only eleven golf courses in Switzerland. The one in Engadine-Samedan, the oldest amongst them all, created in 1898, organized the first editions of the tournament. Until 1938 the Open took place alternately in Engadine, Lucerne, Lausanne and Zurich Zumikon. In 1939 the Swiss Open took place on 72 holes for the first time in Crans-sur-Sierre and the winner was

the French professional Fifi Cavalo.

However, this success is obviously also due in large part to the financial support and the faithful partners of the tournament, beginning with Omega, the title sponsor since 2001. UBS, Ebel, Volvo, Canon (main sponsor from 1991 to 2000), Swiss(air), Swisscom, Moët & Chandon and others have also contributed to the fabulous development of the Open. To all of this is added, for the organization, the presence of a local close knit and efficient team, directed for many years by Gaston-F. Barras, and the support of the Crans-sur-

Sierre Golf Club. The former Swiss Open, now the European Masters, is a sports operation, both commercial and touristic of great measure of which the budget exceeds ten million Swiss francs.

Since the end of the 1970s, the list of winners is rich with laureates of major Grand Slam tournaments like the Spaniards Severiano Ballesteros (1977, 1978 and 1989) and José Maria Olazabal (1986), the American Craig Stadler (1985), the professional from Zimbabwe, Nick Price (1980) or the British, Nick Faldo (1983) and Ian Woosnam (1982).

THRISTON LAWRENCE TRIUMPHS IN CRANS-MONTANA FOR THE 2ND TIME AFTER HIS 2022 VICTORY

Between fog, sunshine and passion, the 78th Omega European Masters will remain

unforgettable. Held from August 28 to 31, 2025 in Crans-Montana, this year's edition delivered an exceptional spectacle, where players, organizers and volunteers turned shifting weather conditions into a true sporting challenge.

While a thick and persistent fog, a rare phenomenon in Crans-Montana, disrupted play on Thursday, radiant sunshine over the weekend allowed fans to fully enjoy the magic of the tournament. South Africa's Thriston Lawrence, showing composure and precision throughout the week, clinched victory with a score of -22, finishing ahead of former champion Matt Wallace, Denmark's Rasmus Højgaard and Finland's Sami Välimäki, all tied for second place.

"It's so tough to win, I was very nervous all day," said the champion. "I started poorly in the final round and gave others hope, but I managed to fight my way back. I tried to stay patient, not to get carried away. It was really

a mental battle all weekend."

A COURSE ADMIRER AND CHALLENGING

The Severiano Ballesteros course continues to evolve and inspire. This year, work on hole no. 8 transformed this par 3 into a true masterpiece: an enlarged green and redesigned spectator area offered a breathtaking panoramic view.

Renowned for its alpine beauty and technical demands, the Crans-sur-Sierre course is unanimously praised by players. Sweden's Alex Noren, winner in 2016, recently said: "

It's one of the most beautiful and challenging courses on the circuit. Precision and strategy are absolutely essential here."

A VISIONARY AND AMBITIOUS TOURNAMENT IN ITS SUSTAINABILITY JOURNEY, TRUE TO SWISS VALUES

In line with Switzerland's spirit of innovation and environmental stewardship, the Omega European Masters continues to strengthen its sustainability efforts. GEO certified and Swisstainable labeled, the tournament is also a signatory of the Sports for Nature

(S4N) framework, reflecting its commitment to progress step by step toward more responsible standards.

Several tangible initiatives highlight this approach: installation of birdhouses across the course, a bottle deposit system for PET and glass, the expansion of an electric vehicle fleet, and more. Thanks to the installed birdhouses, the number of tits nesting on the course has even tripled.

At the same time, a major infrastructure program is underway to improve the quality and sustainability of the course.

More than CHF 20 million have been invested in drainage, allowing an earlier seasonal opening (late April instead of late

May) and reducing water consumption by nearly 30%, thanks in part to connections with the Chermignon and Tseuzier reservoirs. Combined with meticulous care from a team of 24 greenkeepers, far above the European average, these efforts ensure optimal playing conditions while pursuing a clear goal: to progress each year towards greater responsibility.

After a 78th edition marked by resilience and success, the Omega European Masters is already looking to the future. **The next edition is scheduled for September 3–6, 2026**

GOLF CLUB LUGANO: A LOVE STORY

In 1915 Erwin von Riedemann moved from Germany to Lugano with his beloved wife Josefa. Josefa was a passionate golfer, winner of various important competitions. So it was that her husband Erwin decided to show all his love for her by founding one of the first golf courses in Switzerland, inaugurated in Magliaso on 24 November 1923. Created as a 9-hole course by the architect Percy Dell, it was expanded to 18 holes by Donald Harradine in 1970. It is a small miracle: in fact the land on which the course extends today is only 32 hectares, while modern courses they employ around fifty. The holes alternate well, offering inte-

resting challenges for both beginners and professionals.

The Lugano Golf Club also hosts the Lugano Golf Academy under the direction of Paolo Quirici, a golfer who in the late 1980s took fourth place at the Crans Open, the most important competition for professionals in Switzerland and part of the European circuit.

Today the course winds along the Magliasina river on flat terrain among woods of birch, oak, pine, beech, rhododendron, oleander and azalea, among which one encounters many squirrels and also a splendid heron, which often stops between holes 10 and 11. We warmly welcome you and wish you a good game!

Three unique retreats. One shared pulse - The Giardino Ascona radiates pure lightness – a design retreat on Lake Maggiore that redefines contemporary luxury with relaxed sophistication. On the shore, the Giardino Lago seduces with urban serenity and Mediterranean flair, where every moment becomes a stylish pause. In the heart of the Alps, the Giardino Mountain in St. Moritz welcomes guests with authentic tradition and a progressive lifestyle, a retreat full of Alpine warmth and modern clarity.

GIARDINO
HOTELS

HOTEL GIARDINO ASCONA — THE MODERN DEFINITION OF LA DOLCE VITA

On the shores of Lake Maggiore, the Giardino Ascona unfolds as a five-star design retreat that reimagines luxury—as a way of life that harmoniously balances lightness, style, and nature. First light greets you in the morning with a yoga session, and in the evening, you glide gently across the lake aboard a private yacht. Today, relax by the pool, tomorrow, be active with a paddle tour through the surrounding mountains—here, you write the script for your own relaxation.

Nestled in lush gardens and surrounded by tranquil koi ponds, the Giardino Ascona is far removed from convention. It is a retreat that combines effortless luxury with the breathtaking beauty of Ticino. A place where luxury is not just a promise, but an attitude.

Suite Dreams & Sunny Scenes

The 53 rooms and 18 suites open up to nature like the open pages of a book. Mountain panorama or garden idyll with a koi pond: Each room tells a story of clarity, texture, and modern elegance. Here, the design blends with the landscape to create an experience that's more than just accommodation—it's your personal sanctuary, created for moments of indulgence and leisure.

Reto Brändli — Culinary Stories Filled with Heart

At Ecco, 33-year-old top chef Reto Brändli is writing a new chapter in the culinary arts. With a classical foundation and rebellious subtlety, he creates dishes that convey origin and attitude in one breath. His philosophy? «Perfection only arises from joy.» This passion can be felt in every single course—an invitation to rediscover pleasure.

dipiù Spa — Body, Balance & Bliss

Wellness becomes a journey into your inner self at the award-winning dipiù Spa. Tailor-made Ayurveda and yoga programs, exclusive treatments—here, body and mind find new energy. For those who want to delve deeper, retreats with real added value open up new horizons. Those who simply want to let go can enjoy the daybed, relaxed and at their own pace. While the paths vary, the goal is unanimous: pure relaxation.

HOTEL GIARDINO LAGO – LAKESIDE LAZY MEETS VILLA VIBES

The Giardino Lago in Minusio-Locarno is more than a hotel – it's the private lakeside villa you've always dreamed of. Here, Mediterranean charm blends with modern design, light floods every corner, creating a sense of lightness and arrival. A retreat whose relaxed elegance immediately makes you feel at home. Combined with the contemporary restaurant and the legendary Roof Lounge with spectacular lake views, the result is a haven that simply invites you to linger.

Roof Lounge & Dining – Cheers to La Dolce far Niente

Whether it's a sparkling aperitivo kissing the sun or a sparkling champagne as an after-sun kiss – the Roof Lounge of the Giardino Lago is the incomparable hotspot that transforms every moment into a pure lifestyle. The 180-degree panorama over sparkling Lake Maggiore is more than just a backdrop – it's an invitation to dream, to let go, to immerse yourself. The atmosphere? Cosmopolitan, casual, with a touch of Riviera flair – here, relaxed elegance meets Italian lightness. A refuge for those who enjoy pleasure with style.

Cuisine on the Lake: A Summer Breeze for the Palate

The cuisine on the Lake dances lightly like a fresh breeze – modern, clean, and full of character. Every dish speaks of sun, water, and the carefree lightness of the moment, a culinary mini-vacation that gently caresses the palate. No frills, but pure essence: unpretentious, sophisticated, and so authentic that you'll want to stop time. The panorama stretches out like an endless promise – here, pleasure merges with the bliss of the moment.

Wellness Reloaded: Get Out on the Water

Wellness takes on a new rhythm on Lake Maggiore: Get out on the board, into the blue. Those seeking balance can swap the spa for a stand-up paddleboard and glide weightlessly over crystal-clear water. Luxury? Not in excess, but in the freedom to choose exactly what the moment demands. Letting go, immersing yourself, breathing – this is the art of pure reduction, the meditative interplay between body and nature, embedded in the incomparable light of the lake.

GIARDINO MOUNTAIN – ALPINE EXCLUSIVITY IN A NEW DIMENSION

At an altitude of approximately 2,000 meters, the timeless elegance of St. Moritz blends with the tranquil grandeur of the Engadin landscape. Seven meticulously restored Engadin houses tell stories of history and craftsmanship, imbued with contemporary refinement and a well-balanced sense of luxury.

Sun-drenched terraces invite you to linger, the dipiù Spa offers moments of pure relaxation, and culinary masterpieces in award-winning restaurants crown every day. Nestled in the understated, natural beauty of the Swiss Alps, Giardino Mountain offers more than just a destination – here, a lifestyle is lived that uniquely combines tradition and modern exclusivity.

St. Moritz? Sure. But completely different, a la Giardino

Here, between snow-capped peaks and sophisticated slopes, seven lovingly restored Engadin houses tell stories of tradition and contemporary lifestyle. 55 rooms and 22 suites combine alpine chic with modern comfort – a temporary home that redefines winter days.

Ski-out, style-in

The lift is just a stone's throw away, but true luxury awaits after the descent: a cozy fireplace, the lounge with panoramic views, or a glass of the finest red wine – the perfect end to a day in the snow. The magic of this place lies in the interplay of contrasts.

Taste meets terrain

Culinary worlds merge: At Hide & Seek, alpine refinement combines with Mediterranean lightness, while Stüva reinterprets traditional Engadin specialties – fresh, vibrant, and without nostalgic baggage. And in the fine-dining restaurant Ecco St. Moritz, chef Reto Brändli creates his bold vision at 1,800 meters – pure, focused, incomparable.

The dipiù Spa as a reset button

At the dipiù Spa, you won't find an ordinary wellness experience, but rather a holistic journey to regeneration. Deeply effective Ayurvedic treatments, tailor-made mental balance programs, and authentic oases of relaxation offer new energy – here you often find more than you were looking for.

Furthermore, to combat the frenetic life we are subjected to, it has a mat for total body treatment in order to reduce oxidative stress, inflammation, tiredness and discomfort.

WHEN AN ENERGY SLUMP RUINS YOUR HANDICAP

STABILITY THROUGH 18 HOLES WITH SMART NUTRITION

An 18-hole round can last up to five hours. This means your body needs not only technique and mental strength, but also consistent energy. If this is lacking, concentration wanes, shots become imprecise – and your handicap suffers.

Many golfers underestimate this factor. The common reflex is to reach for chocolate bars, gummy bears, or sugary drinks. But quick sugar fizzles out just as quickly as it hits – and inevitably leads to the next energy slump.

The better solution: a snacking strategy that provides consistent energy and keeps blood sugar levels stable. With the right mix of carbohydrates, proteins, and healthy fats, your game stays consistent – and you don't miss out on enjoyment.

Practical snack ideas for your golf bag:

Nut and fruit mix: almonds, walnuts, plus dates or apricots – natural, nutritious, and easily digestible.

High-quality oat bars: best homemade or carefully selected, without artificial additives.

Energy balls: made from nuts, oats, dates, and cocoa – compact and effective.

Hard-boiled eggs: high in protein, easy to make, and quick to grab.

Equally important: drink plenty of fluids! Regularly drinking still water or unsweetened tea supports concentration and performance. Sugary soft drinks or energy drinks, on the other hand, put more strain on the body than they help.

Bottom line: Successful golf depends not only on technique – but also on how wisely you nourish your body during the round. With well-chosen snacks and plenty of fluids, you'll play more consistently, be more focused, and enjoy every round – in the spirit of Golf Pleasure and Taste.

THE REAL LUXURY IS CONNECTION: WHAT GOLF STILL TEACHES US TODAY

In a world where so much of our interaction is mediated by screens, the ability to truly connect — to be present, attentive and engaged — has quietly become one of the rarest and most valuable experiences.

This is why golf still matters.

At first glance, golf is a sport. But for those who observe closely, it's also a space — one of the very few left — where presence is not only encouraged, but required. It's a game that unfolds slowly, in real time and in

real conversation. And that, in today's fast-moving culture, is something remarkable.

As someone who operates globally, constantly navigating across time zones, languages and cultural codes, I spend most of my days in high-velocity spaces. I work with people who build their businesses and reputations online. Even when we meet in person — at conferences, boardrooms or retreats — our communication is often shaped by habits formed in the digital world: speed, multitasking and perpetual motion.

But golf is different.

Golf does not allow for distraction. You can't rush it. You can't half-listen. You can't rely on notifications or shortcuts. To play — and more importantly, to connect — you have to slow down. You have to pay attention. You have to be fully there.

This is part of what makes golf feel, to many, like a luxury. Not just because of the exclusivity of the setting or the sport itself, but because it demands something most environments no longer do: presence. And presence, today, is a true privilege.

In my role as a Global Super Connector, I've learned that the deepest connections rarely happen when we're trying to impress. They happen when we're listening. When we're not trying to "sell" anything — not even an idea. They happen in the spaces between

transactions — and that's what golf creates.

Golf offers a rare rhythm. A pace that invites trust to grow naturally. A format where conversation evolves without pressure. Where reputations are shaped quietly, not through self-promotion, but through how someone moves, speaks and listens over the course of a few hours.

Of course, not everyone uses golf that way. Some treat it as a performance. But for those who understand what's possible, it remains one of the few spaces where connection is not an afterthought: it's the main event.

In that sense, the true luxury of golf is not the location, or the club, or even the game itself. It's the experience of being in a space where human connection still matters — and where being fully present is not optional, but expected.

He was so impressed with how much better he looked and felt afterwards – increased energy, loss of excess weight, brighter eyes and skin, better sleep, easier digestion, improved mood and clearer state of mind – that he started to explore alternative health treatments and philosophies around the world by practicing Vipassana meditation, visiting different wellness centers and studying various wellness disciplines.

He also wanted to find a way to incorporate healthier choices into his current lifestyle without having to isolate himself from his family, friends and society.

He realized that he could make noticeable changes in the way he felt and his level of health with minor adjustments to his eating and exercise habits, and his environment. He told his family and his friends, who in turn told their families and friends.

By word of mouth this wellness concept gained so much popularity, he decided to form a company to share his experience and resources with other people interested in discovering a healthier way of life.

We at Borgo Cadonega Relais & Spa care about the environment and our Relais is truly surrounded by greenery. In fact, it has decided to satisfy its customers while still respecting nature and the ecosystem in which we live. Borgo Cadonega uses a geothermal system, which exploits the heat from the ground, to warm up the building. A Relais warm in winter and cool in summer, all while fully respecting the environment.

How does a geothermal system work?

A geothermal system manages to use the thermal energy produced by the earth, through the combustion of natural gas, allowing to produce electricity and heat. The advantage is to reduce the use of fuel, preferring a green alternative, for the benefit of the planet.

The contact with nature is perceived in each of our rooms, thanks to the

view they have on the village or on the surrounding hills. The large windows offer a magnificent view of the nature that surrounds the Relais.

We offer our guests three types of rooms, for every need. Each room has a furniture that skilfully combines antiques and modern design and are embellished with original works by Alinari, Joan Mirò, Valerio Adami. In our rooms, history unites with the present, antiques with modernity, rustic with comfort; a mix of unique ingredients for a dream stay, surrounded by nature.

Food is not just nourishment.

Cuisine is made of perfumes, aromas,

flavors, textures, colors and emotions. Of love. And it is thanks to the love that our chef puts into his creations that the customer manages to live an experience that involves every sense.

All while respecting the environment. The chef personally selects the ingredients of her kitchen, also assessing the impact they have on the environment, using them to prepare 0 km dishes linked to the tradition of the area.

The strong point of the restaurant are the stuffed pasta, typical of the area, but also the preparation of the ingredients: pasta, bread, focaccia and even ice cream are prepared by our chefs.

Unwind in our wellness center,

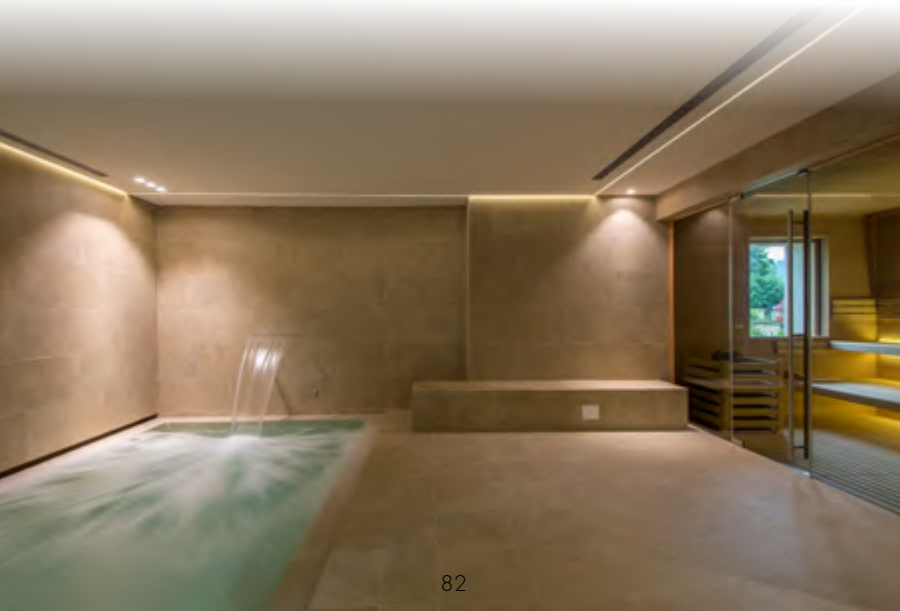

where we offer treatments for total relaxation. You can wave goodbye to the tension and stress of work and everyday life thanks to the hot tub, Turkish bath, sauna, or sensory showers. Revitalize yourself with the ice waterfall and jet shower, combined with other treatments, and conclude your wellness journey in the relaxation room, sipping an infusion of your choice.

Upstairs, we offer a private spa with a hot tub, Starpool multifunction cabin, and couples' massages. Ideal for a romantic getaway dedicated to relaxation.

All this in a space finished in antique oak, ensuring you never lose touch with nature.

Your hideaway in the middle of nature

AN UNSPOILED BREATH IN THE MIDDLE OF TUSCAN COUNTRYSIDE

The centre of La Rugea Le Spighe Resort is Villa Alamanni, an ancient property that belonged to Medici's family, dating back to 1500. Our resort is situated in a 4000 square metres private park, between Castelnuovo and Poggio a Caiano, ancient territory of the Grand Dukedom of Tuscany.

REFINED DWELLINGS WITH BIG SPACES WHERE YOU CAN CELEBRATE

YOUR SPECIAL MOMENTS

The art of realizing your dreams... there are some important moments in life that we'd want to remember forever.

Our attention for details, the kindness of our staff and the familiar atmosphere will make your function a true party.

The widespread hotel, surrounded by 20 hectares of open countryside is divided in three locations, with pinewood, park and pools, and it's appropriate for any kind of celebration.

The three different locations distinguish

themselves for their capacity and seasonality; they can host indoor events, outdoor ones or mixed.

A peaceful haven where time stops and you won't be needing any kind of hurry. Conceptually similar to a widespread hotel, La Rugea Le Spighe Resort is a unique place, composite of 3 principal structures, that are separated from each other: the ancient mansion La Rugea, Le Spighe and Le Scuderie, our location for the events. Every structure has its own parking and access.

Three elegant alleys, flanked by cypresses (very Tuscan!) lead the visitor to our buildings.

Different environments in the same reality, where open countryside, architecture and old-fashioned furnished rooms meet.

Our peaceful heaven is completed by our outdoor pools and an Etruscan-roman tepidarium, with hydro massage bath and relax zones. The atmosphere is enlivened by piped music.

An equipped gym, jogging paths and a holistic centre for massages will be at our guests' disposal.

BAWE ISLAND – WHERE TIME DANCES TO THE RHYTHM OF THE SEA

Just 15 minutes from Stone Town, in the middle of the Indian Ocean, lies an island where time passes to the rhythm of the tides, and only the gentle lapping of the waves breaks the silence. Bawe Island is far more than a destination – it's a feeling: a retreat for those seeking peace, seclusion, and deep romance. Where love stories unfold in hidden sea caves, where the sea accompanies dreams, and every meal – whether in a private villa,

under the stars, or directly on the shore – becomes a sensual experience.

Africa's first «island within an island» concept

With Bawe Island Resort, The Cocoon Collection presents a new dimension of island vacations – Africa's first true «island within an island» experience. On 30 hectares of pristine nature, a

relaxed Robinson Crusoe flair combines with timeless elegance. The entire area can be explored in just ten minutes by bicycle. Only 70 exclusive villas – all with ocean views, private gardens, heated pools, and an open-air bathroom with a freestanding bathtub surrounded by greenery – guarantee complete privacy and personalized butler service. Whether it's lagoon suites on the water, beachfront villas, or the majestic Sultan's Palace: Here you'll experience «slow luxury» at its finest.

Culinary Art as an Art Form – Private Dining as a Signature Experience

Private dining on Bawe Island is more than just a service – it's part of the resort's identity. Whether it's a romantic picnic in a secret grotto accessible only at low tide, a candlelit dinner on the beach, a floating breakfast by your private pool, or an exclusive sunset barbecue – every meal becomes a declaration of love. A personal chef accompanies you on a culinary journey of discovery and refinement.

A spa born of earth and sea

The Rebirth by Healing Heart Spa is situated above the sea and draws on the power of Africa. Pure natural ingredients such as baobab oil, shea butter, and Kalahari melon are at the heart of these rituals, which nourish and harmonize body and soul. Whether a nighttime outdoor couples massage or a full day of retreat, each treatment follows the rhythm of nature and honors the spirit of Zanzibar.

The Poetry of the Tides

Every day on Bawe is different – the landscape and light change with the tides. As the sea recedes, sandbanks, hidden coves, and coral gardens appear. Barefoot walks become treasure hunts. The movement of the water is more than just a backdrop – it's a declaration of love for couples seeking unforgettable moments.

Unforgettable Experiences – From the Seabed to Sunset

Adventurers and romantics alike will find what they're looking for: snorkeling, diving, kayaking, or stand-

up paddleboarding – everything is exclusively designed. Those seeking something special can charter a yacht or speedboat for a champagne cruise into the sunset.

A Culinary Journey for the Senses

Four characterful restaurants and a lively bar ensure daily variety: live cooking at «The Sand,» Japanese teppanyaki under the baobab tree at «Rising Sun,» Italian classics at «Sinfonia,» or relaxed beach vibes at the «Beach Club.» «The View» serves cocktails with panoramic views. Private dinners in the spice garden or under the stars celebrate Zanzibar's culinary diversity.

A place that honors the soul of Zanzibar

The name Bawe – derived from the Swahili word for «coral» – says it all. Music, architecture, and atmosphere reflect Zanzibar's cultural depth: African, Arabic, and Asian influences intertwine to create a unique experience. Guided tours through the UNESCO-protected old town of Stone Town immerse you in the island's history and present.

Sustainability as a lived responsibility

Bawe Island represents a vision of harmony with nature: with Zanzibar's largest solar farm, a modern seawater desalination plant, its own water bottling plant, and a protected marine area. On nearby Prison

Island, guests can visit the giant tortoises that live there – future ambassadors of the Cocoon Collection Foundation's planned conservation museum.

An invitation to retreat from the world

Just 30 minutes from Zanzibar International Airport, Bawe Island is easy to reach – yet difficult to leave. Luxury seems light as a feather, intimacy is a given, and time loses its meaning. For honeymooners, lovers and dreamers, Bawe Island is the ultimate private paradise.

Created in the 1930s, the golf course consists of 18 holes and is located on hills of olive trees and mimosas.

It all began on Tuesday 1 December 1931, when Prette and Pasquali, two of the best goalscorers of the time, decided to perform a demonstration in front of a curious audience new to the sport. Due to its morphology, the course certainly cannot be counted among the long ones, the par 4s are all more or less easily reachable with the second shot. It is not a course for „hitters“, but it compensates well for this deficiency by offering very technical and delicate holes, where the player must pay maximum attention.

Mirazur's universe

At the foot of the mountains overlooking the sea, a stone's throw from Italian border post, the 1930s-era rotunda building housing the Mirazur enjoys an idyllic setting.

It spreads over three levels on the hillside, surrounded by lush vegetation.

The elegant, spacious and light-drenched dining room commands a panoramic view of the sea and the town of Menton through the large windows running all the way around.

The kitchen

The menu is totally rooted in the link between heaven and earth and the influence of the Moon and the planets on plants. A gastronomic journey to discover the essence and vital force of each day according to the biodynamic calendar.

Purified, pictorial and colourful plates that play on textures and bold associations and that express this moving intelligence of nature that reveals all its power in direct contact with the earth.

Mauro Colagreco

Through his personal interpretations of ingredients and flavour combinations, Mauro Colagreco has forged a style of his own.

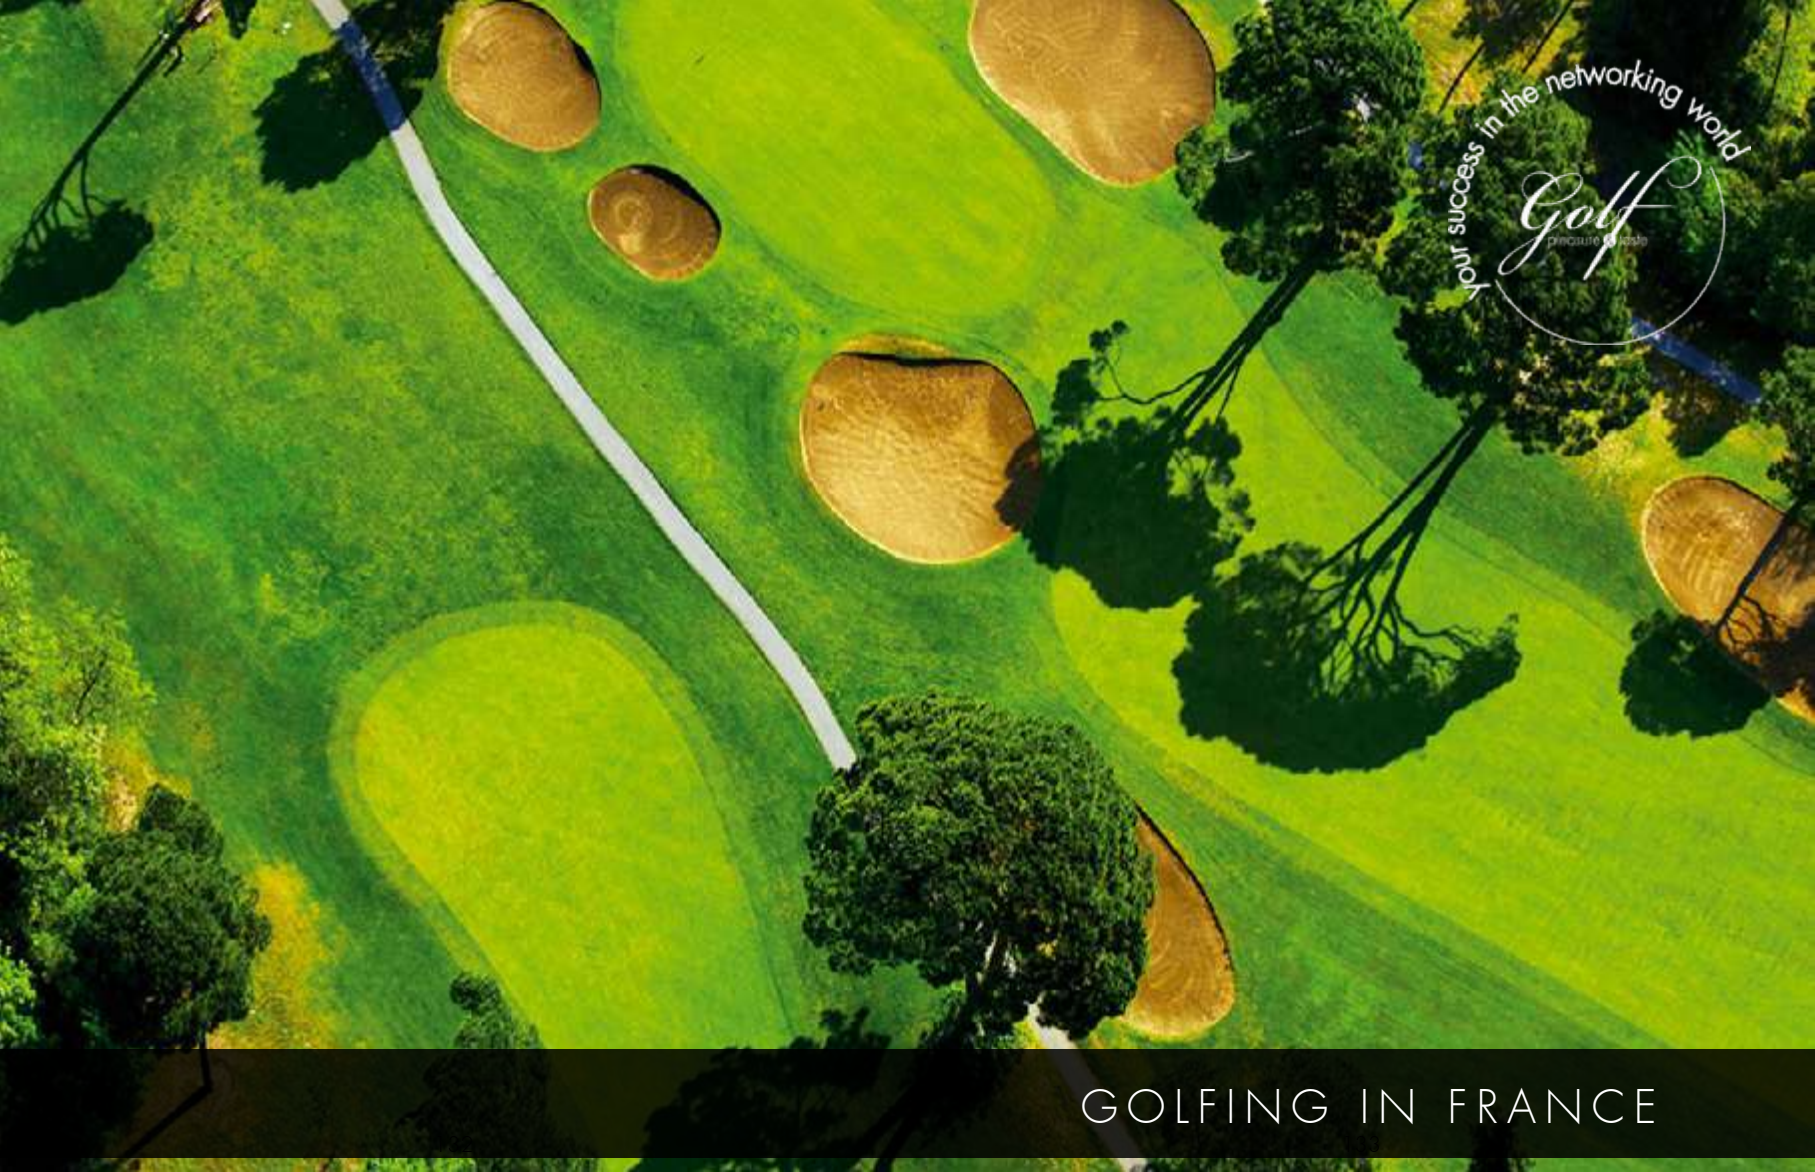

He has absorbed his Italian-Argentinian cultural heritage and that of the chefs with whom he trained, and now follows his intuition as he draws on the local culture on both sides of the border.

Inspired by the sea, the mountains and the fruit and vegetables grown in his own gardens, Mauro invents colourful, pictorial dishes that play with textures and bold contrasts.

L.RAPHAEL Premieres at the 78th Cannes Film Festival

When Beauty Meets Longevity Science Unveiling the Revolutionary SUN DEFENSE SPF 30

Amid the brilliance of the French Riviera and the timeless elegance of the Cannes Film Festival, L.RAPHAEL, the Swiss luxury skincare and wellness brand, once again welcomes celebrities and distinguished guests, pampering them with its latest innovations unveiled en avant-première, alongside its timeless grande classique rituals.

This year, under the Riviera sun, L.RAPHAEL proudly presents its newest breakthrough: SUN DEFENSE SPF 30 with UV PEARLTM Technology. More than sun protection, this innovation represents a powerful step forward in the brand's global mission to advance both beauty and skin longevity. Developed with cutting-edge science in cellular health and anti-aging, SUN DEFENSE SPF 30 features L.RAPHAEL's proprietary UV PEARLTM Technology, a state-of-the-art microencapsulation system that encloses organic UV filters within transparent silica pearls. These pearls remain on the skin's surface, where they neutralize harmful rays without penetrating

the epidermis—delivering highly effective, safe, and lasting protection.

"This is not just sun protection—it's part of a greater philosophy of lasting beauty and skin longevity," said Ronit Raphael Leitersdorf, Founder of L.RAPHAEL. "Our new SPF 30 is a fusion of innovation and intention, and the Cannes Festival—an icon of both cinematographic beauty and the radiant Riviera sun—is the perfect setting for its debut."

A New Standard in Skin Protection

L.RAPHAEL SUN DEFENSE SPF 30 offers surface-level UV neutralization, meaning filters remain on the skin's exterior to reduce cellular stress and prevent long-term damage. Its gentle, non-invasive formula is ideal for daily use, particularly for skin posttreatment. The texture is lightweight and transparent, seamlessly blending into all skin tones, and it adheres with long-wear resistance superior to traditional formulas.

For Skin Longevity at Every Age

More than a sunscreen, SUN DEFENSE

SPF 30 is a daily ritual for those seeking youthful, resilient skin. It supports natural regeneration and defense, and is especially suited for skin that has undergone cosmetic treatments (laser, peels, injectables), retinoid or brightening therapies, or is affected by aging, sun exposure, or uneven tone.

This launch underscores L.RAPHAEL's holistic approach to beauty and wellness, guided by its Seven Foundations of Beauty: Medical, Nutrition, Aesthetics, Physical Activity, Stress Management, Preventive Medicine, and L.RAPHAEL Technology. Through this philosophy, the brand empowers individuals not only to look radiant, but to live beautifully and age consciously.

Gifting A Red-Carpet Favorite

This year, L.RAPHAEL also offers a gift to its loyal fans: the celebrated POWER VITAMIN C SERUM—a must-have before stepping onto the red carpet. Renowned for its immediate and long-term effects, this anti-aging formula visibly brightens skin and boosts collagen synthesis, refining texture and reducing discoloration and fine lines.

Its potent, stabilized Vitamin C complex—combined with proteins and fruit extracts—delivers antioxidant power, stimulating elasticity and firmness. An added brightening effect is achieved with Alpha Arbutin, which minimizes dark spots by blocking melanin production, creating an even tone across all skin types.

To deeply hydrate, Provitamin B5 binds water in the skin and provides soothing, anti-inflammatory care—leaving skin soft, smooth, and radiant.

A Special Message from Ronit Raphael

In a special message to her friends and clients gathered at Cannes, Ronit Raphael announced the upcoming opening of several new L.RAPHAEL spas on both sides of the Atlantic—in Europe and the United States—designed to bring the brand's vision of luxury and longevity even closer to its international clientele. Stay tuned for the latest from L.RAPHAEL.

Enjoy the sun—wisely—and the cinema, without limits!
